

ABSTRACT OF THE DISCLOSURE

A method of transferring information from a plant for the production of packaging material to a filling machine involves producing a web of the packaging material, measuring, on the production of the web, a predetermined magnitude in a first portion of the web, with the portion being intended to form a first package in a filling machine, providing, on the production of the web, a second portion which is intended to form a second package in a filling machine, with information as to the measured magnitude, reading-off the information in a filling machine and controlling a second predetermined magnitude in the filling machine on the basis of the information.

IN THE SPECIFICATION

Kindly add the following Abstract of the Disclosure at the end of the application following the last page of the claims. The Abstract of the Disclosure is also set forth on a separate sheet at the end of this Preliminary Amendment.
